Introduction

Parking space is a scarce commodity today and should come with a price. A low parking price encourages more vehicles on the road, contributing to air and noise pollution. The best way to manage the parking is by charging the right price for it. If the price is too low and no spaces are available, it leads to traffic congestion and chaos. Pricing can thus be a very effective tool for the management of travel demand as a whole.

To combat this problem of increasing parking demand, there is a need for suitable parking facilities in Bareilly. Hence, The Bareilly Smart City Limited has installed Multi level car parking at 2 locations with total parking capacity of 117 cars divided into 84, and 33 car carrying capacity at these locations with maintenance period of three years of the mechanical system.

Project Intent

Currently, Bareilly has installed puzzle type parking locations at below mentioned two locations, BSCL intends to invite Potential players to operate and manage the System for a period of three years.

The potential bidder can bid for one or more than one or for all the offered MLCP Parking Locations as per their choice.

Site Location

- Ghantaghar/ Moti Park
- DD Puram

SN	Location	Car Capacity
1	Ghantaghar/ Moti Park	84
2	DD Puram	33

- For each parking location, Contractor is free to charge prevailing market rates from end users and can also adopt dynamic parking charges for peak hours however maximum and/or minimum parking charges need to take prior approval by BSCL
- The Selected Bidder will also be eligible to collect revenue from Parking fees and Advertisement rights on approximately 400 sqft. area.
- Parking and Advertisement fee will be inclusive of GST
- To generate revenue Selected Bidder may request BSCL to declare the area of 100m radius within the parking to be No Parking zone to make this more viable.

Key Performance Indicator

- Parking management should not cause any disturbance in the traffic flow and movement
- As per good industry practice include the use of technology and parking management system and apparatus.
- Digital system for the operation and maintenance should be adopted
- Mechanized instrument to be used judiciously to great extent to avoid conflict of interest between maintenance agency & selected bidder. If damage is found in apparatus due to Operating agency rough use, appropriate Penalty may be imposed on the selected bidder. If the selected bidder fails to deposit the penalty charges within the stipulated time period as specified by BSCL, then same will be adjusted from the performance guarantee
- Parking Time needs to be under 5 minutes to reduce the timing of vehicles coming in and out of the system.
